MORNING DEW

FINANCIAL MOVES TO BE RICH/WEALTHY IN 2025.

Pastor A.S.O Olaleye

6th January, 2025

With the right strategy and mindset, becoming a rich or wealthy is no longer a distant dream. It is possible, but it takes work and it's not a get rich quick overnight scheme.

You need to be committed to reaching your goal.

Success takes time, discipline, and consistency.

When you set clear goals, build a plan, and follow it, the path to wealth becomes clear and attainable.

With digital opportunities and increased access to financial tools, there has never been a better time to take control of your financial future.

Whether you are starting from scratch or looking to accelerate your progress, today's financial landscape offers endless possibilities to build and grow wealth.

Let's look at five financial moves you can start today to reach millionaire status:

1. Create your wealth building plan

Proverbs 13:11

[11] Wealth gained by dishonesty will be diminished, But he who gathers by labor will increase.

Create clear financial goals and build your plan to attain it. As you are working, calculate how much you need to invest or save to reach your goal in a year.

Do you need to take other job if you can to earn more money to reach that goal?

Do you need to reduce your debt level?

Do you have investment targets.

Ensure that you build your financial plan that takes all those questions into consideration.

2. Maximize your income streams

To reach millionaire status you may need to add income sources such as a side hustle and building passive income ideas.

Identify areas where your skills match market demand.

Look for where you can either scale your business or career.

If working 9-to-5 you can invest in career development and negotiate a raise.

If launching or scaling your business, invest in the tools and resources it takes to do so.

3. Invest strategically and consistently

Start investing now. Whether you choose to invest in stocks, bonds, or real estate, be sure to diversify your portfolio and balance risk with a mix of assets.

Set up automatic contributions and slowly build your investments. Even if it's small amounts, invest now.

Ecclesiastes 5:11

[11]When goods increase, They increase who eat them; So what profit have the owners Except to see them with their eyes?

4. Eliminate debt

If you live debt and loans, these drain resources. You need to pay off debt as quickly as possible. If you live or do most things with debts find ways to stop doing that.

Proverbs 22:7

[7]The rich rules over the poor, And the borrower is servant to the lender.

5. Protect your wealth

You are your largest asset, and you need to protect the income you generate. Be sure to protect yourself with health, life, and property insurance.

Try to have a fixed account that you keep in a high interest savings account.

The bottom line is that to become a self-made millionaire requires focus, strategy, and action.

Proverbs 3:9-10

[9]Honor the Lord with your possessions, And with the firstfruits of all your increase;

[10]So your barns will be filled with plenty, And your vats will overflow with new wine.

When you follow these tips, they will help you build a solid foundation for financial success.

The journey to be a millionaire starts with a single step, so take action and watch your wealth grow.

And remember that financial success is more than just the numbers; it's about creating options, opportunities, and a legacy for the future.
