## MORNING DEW

### BE SMART ABOUT YOUR CAREER CHOICE.

**Pastor A.S.O Olaleye**

**24th June, 2024**

Our biggest wealth-building tool is our income. So when it comes to choosing a career, there's a lot to do about it.

Don't stay stuck at a dead-end job, especially if it's making you miserable.

Find a job you enjoy that also supports your goals of financial security so you can enjoy the journey.

Start with the end in mind.

There are some things to keep in mind here:

Where do you want to be in 10 years?

Does this job make sense with your overall goals?

Is there income-earning potential?

Even if you're not making your dream salary from the start, make sure there's opportunity for your income to increase as your value increases.

Can you grow?

Are there opportunities for you to move up and grow personally and professionally?

Do you enjoy the work?

Don't spend a career at a job you hate. Find something you're passionate about that allows you to use your gifts and skills.

Do the benefits support your goals of financial freedom?

Your options for retirement savings and health insurance can dramatically affect your ability to build wealth.

For example you are working in a place that has no future, no pension, no gratuity, please don't be stuck in that kind of job.

Somebody said: "Your choice of career can have a big impact on your long-term financial plan, so take it seriously."

Prayers:

1. O God help me to be smart in my career choice.

2. You my job, support my goals of financial security in Jesus name.

3. On my job, my income will increase as my value increases in Jesus name

4. On my work, I will not miss opportunities to grow and to move up personally and professionally in Jesus name.

5. I refuse to spend my career at a job that I hate, O Lord change my job to the best.

6. My gift and skills will not be wasted, the benefits will support my goal of financial freedom in Jesus name.

7. O Lord, let my career have big impact on my long-term financial plan in Jesus name.
